

## Contents

### Volume 293 (1993)

#### Research Papers

- The lipid peroxidation product 4-hydroxynonenal is a potent inducer of the SOS response  
 M. Benamira and L.J. Marnett (USA) 1
- Neither enhanced removal of cyclobutane pyrimidine dimers nor strand-specific repair is found after transcription induction of the  $\beta_3$ -tubulin gene in a *Drosophila* embryonic cell line *Kc*  
 J.G.R. De Cock, E.C. Klink, W. Ferro, P.H.M. Lohman and J.C.J. Eeken (Netherlands) 11
- Relationship between the functional regions of the RecA protein and ATP hydrolysis in UV-irradiated *Escherichia coli* cells  
 M. Pueyo, I. Gibert and J. Barbé (Spain) 21
- Suppression of X-ray-induced chromosome aberrations in ataxia telangiectasia cells by introduction of a normal human chromosome 11  
 S. Kodama, K. Komatsu, Y. Okumura and M. Oshimura (Japan) 31
- Repair of X-ray induced DNA strand damage by isolated rat splenic lymphocytes  
 T.P. Coogan, J. Motz and N.T. Christie (USA) 39
- Abnormal processing of transfected plasmid DNA in cells from patients with ataxia telangiectasia  
 T.M. R  nger, M. Poot and K.H. Kraemer (USA, Germany) 47
- A re-examination of the intragenome distribution of repaired sites in proliferating xeroderma pigmentosum complementation group C fibroblasts  
 G.J. Kantor and G.A. Shanower (USA) 55
- New DNA repair-deficient mutants of *Chlamydomonas reinhardtii*  
 S. Podstavkov  , D. Vl  ek and E. Miadokov   (Czechoslovakia) 65
- Inhibition of DNA polymerase activity by thymine hydrates  
 T. Ganguly and N.J. Duker (USA) 71

#### Conference Report

- Recent advances in DNA repair and mutation: A report of the meeting of the British Photobiology Society and the DNA Repair Network, London, 16 December 1991  
 P. Strike (UK) 79

#### Announcement

89

#### Research Papers

- DNA-damage processing in a radiation-sensitive mouse cell line  
 R.L. Wartens, B.W. Lyons, D.J. Chen and K. Sato (USA, Japan) 91
- Mutant rodent cell lines sensitive to ultraviolet light, ionizing radiation and cross-linking agents: a comprehensive survey of genetic and biochemical characteristics  
 A.R. Collins (UK) 99
- Organization and expression of the human gene for *O*<sup>6</sup>-methylguanine-DNA methyltransferase  
 Y. Nakatsu, K. Hattori, H. Hayakawa, K. Shimizu and M. Sekiguchi (Japan) 119
- Developmental regulation of the base excision repair enzyme uracil DNA glycosylase in the rat  
 Y. Weng and M.A. Sirover (USA) 133
- A xeroderma pigmentosum complementation group A related gene: confirmation using monoclonal antibodies against the cyclobutane dimer and (6–4) photoproduct  
 T. Mori, T.L. Rinaldy, R.S. Athwal, G.P. Kaur, O. Nikaido, R.S. Lloyd and A. Rinaldy (Japan, USA) 143
- Expression of excision repair genes in non-malignant bone marrow from cancer patients  
 M. Dabholkar, F. Bostick-Bruton, C. Weber, C. Egwuagu, V.A. Bohr and E. Reed (USA) 151
- Cisplatin induced cell killing and chromosomal aberrations in CHO cells: treated during G<sub>1</sub> or S phase  
 G. Krishnaswamy and W.C. Dewey (USA) 161

Activated murine neutrophils induce unscheduled DNA synthesis in B lymphocytes S. Janz and E. Shacter (USA)	173
Increased resistance of the Chinese hamster mutant <i>irs1</i> cells to monofunctional alkylating agents by transfection of the <i>E. coli</i> or mammalian <i>N</i> 3-methyladenine-DNA-glycosylase genes Y. Habraken and F. Laval (France)	187
Acidification of <i>Escherichia coli</i> and <i>Salmonella typhimurium</i> cytoplasm reduces the mutagenic effect of <i>N</i> -methyl- <i>N'</i> -nitro- <i>N</i> -nitrosoguanidine O.N. Oktyabrsky, N.V. Golyasnaya, G.V. Smirnova, V.A. Demakov, N.K. Posokhina and T.A. Kholstova (Russia)	197
Increased amount and contour length distribution of small polydisperse circular DNA (spcDNA) in Fanconi anemia K. Motejlek, D. Schindler, G. Assum and W. Krone (Germany)	205
Deoxyguanosine reverses inhibition by hydroxyurea of repair of UV-irradiated adenovirus 5 R.S. Day III (Canada)	215
Age dependence of <i>O</i> <sup>6</sup> -methylguanine-DNA methyltransferase activity and its depletion after carcinogen treatment in the teleost medaka ( <i>Oryzias latipes</i> ) K. Aoki, Y. Nakatsuru, J. Sakurai, A. Sato, Prince Masahito and T. Ishikawa (Japan)	225
Repair of 6-4 photoproducts in <i>Saccharomyces cerevisiae</i> S. McCready and B. Cox (UK)	233
Effect of mutations in SOS genes on UV-induced precise excision of Tn10 in <i>Escherichia coli</i> M.S. Levy, E. Balbinder and R. Nagel (Argentina, USA)	241
Induction of the adaptive response of <i>Escherichia coli</i> to alkylation damage by the environmental mutagen, methyl chloride P. Vaughan, T. Lindahl and B. Sedgwick (UK)	249
The induction and reversal of topoisomerase II cleavable complexes formed by nuclear extract from the CHO DNA repair mutant, <i>xrs1</i> K. Caldecott, G. Banks and P. Jeggo (UK)	259
Contents, Vol. 293 (1993)	269
